Painless patient paperwork

HIPAA-compliant forms patients complete from any device.

Optimize the patient intake process with AristaMD digital patient forms. Save time and eliminate paperwork. Securely collect patient information and:

- Digitize and customize forms to reflect your brand and practice information.
- Combine forms into packets suitable for groups of patients (new, existing, pediatric, etc.).
- Send text or email invitations to patients to complete single forms at the touch of a button.
- Monitor progress and send follow-up requests to ensure that all documents are completed before the appointment.

Save time and improve the patient experience.

Patient forms designed to fit the exact needs of your clinic. AristaMD helps you:

- Eliminate administrative work and patient frustration by capturing health history, demographics and additional information online.
- Get all the specialized information you need to make patient visits efficient and effective.
- Increase the likelihood that patient information and consent is gathered prior to the patient's appointment.
- Request details about prior testing, lab work or imaging to reduce the cost of care.

Manage patient intake, notifications and referrals in a single platform.

Quickly send and receive forms directly from the patient's mobile device.

Stop printing forms, managing paperwork and comparing patient data sources.

Track progress, send automated reminders and receive forms before the appointment.

Avoid missing or incorrect information due to written forms and manual data entry.

Reduce legal risk by capturing patient signatures online.

Improve patient satisfaction and reduce the hassle of completing forms in the clinic.
