

# Real world outcomes

eConsults deliver immediate, quantifiable value.

## Deliver faster specialist access

Realize immediate improvements in access times

## Decrease the cost of care

Fewer expensive specialist visits, workups, hospitalizations, downstream referrals and ED visits

## Increase member satisfaction

Reduce time to receive specialist care and out-of-pocket expenses (e.g., travel)

## Improve outcomes

Reduce unnecessary specialist referrals, ED visits, and hospital admissions

## Have happier docs

PCPs supported for complex populations, specialists operate at top of license, happier patients

## Higher margins

Care costs decreased for cases covered by eConsults

## More competitive offering

Access to specialty care for less money

## Better Ratings

HEDIS, STARS, CAHPS

## Value to the 3 Ps

### Patients

- Avoid taking time off work and arranging for childcare
- Immediate specialist access
- Lower out-of-pocket cost
- Fewer acute events and ED visits

### Providers

- Enhanced care offering
- Educational tool
- Revenue generation from keeping patient
- Improved patient management

### Payers

- Increase access – HEDIS & Star Ratings
- Cost savings from more appropriate patient triage and reduced ED visits and hospitalizations
- Improved management of chronic conditions

eConsult impact by the numbers

“ Telehealth is a potentially useful tool that, if employed appropriately, can provide important benefits to patients, including: increased access to health care, expanded utilization of specialty expertise, rapid availability of patient records, and the reduced cost of patient care.

—  
BCBS Affiliates

“ Telehealth Services encompass the delivery of health-related services and information through telecommunications technologies to improve a patient’s clinical health status. Telehealth is not a medical specialty in itself but a healthcare delivery modality, which is expected to increase access and decrease the cost of delivering care.
